OOOLights

Decorative Bulb Collection

Shape. Surface. Atmosphere.

15 selected styles for interior and display concepts

Explore 15 decorative glass bulb styles, from soft amber and smoked tones to rippled textures and colourful finishes. Their distinctive shapes bring character to pendants, table lamps, cafés and hotel interiors. Choose the look that suits your space, and OOOLights will help coordinate samples and supply details.

Texture & timeless forms

Ribbed and rippled surfaces, smoked glass and amber tones give familiar shapes a distinctive character.

OOL-DB-01

Amber Ribbed Globe

Raised glass texture and an amber tint give this rounded silhouette a vintage character.

Raised texture / amber glass

Suggested use: Pendant and table-lamp concepts

OOL-DB-02

Smoked Ripple Globe

Rippled glass and a wavy filament create a layered, sculptural look.

Water-wave texture / smoked tint

Suggested use: Hotel lounges and bar concepts

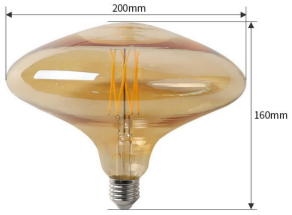

OOL-DB-03

Smoked Cylinder

A compact cylindrical outline pairs smoked glass with a visible filament.

Smooth glass / smoked tint

Suggested use: Modern table lamps and pendants

OOL-DB-04

Amber Saucer

A broad, flattened silhouette makes the bulb itself a decorative focal point.

Saucer profile / amber glass

Suggested use: Dining and statement-pendant concepts

Sculptural shapes & colour

Explore faceted, vase-like and organic silhouettes, with iridescent, blue and copper-toned effects.

OOL-DB-05

Iridescent Diamond

Multiple facets and an iridescent finish create changing colour reflections.

Faceted glass / iridescent effect

Suggested use: Feature displays and creative interiors

OOL-DB-06

Soap-Bubble Vase

A vase-like outline carries shell-inspired colour bands and a pearly sheen.

Shaped glass / soap-bubble effect

Suggested use: Boutique interiors and feature pendants

OOL-DB-07

Deep-Blue Faceted Globe

A blue-toned faceted surface gives a jewel-like appearance when unlit.

Faceted glass / deep-blue finish

Suggested use: Colour-led interior concepts

OOL-DB-08

Copper Lava Form

An irregular, stone-like silhouette pairs a reflective copper tone with a dramatic illuminated look.

Organic form / copper-toned finish

Suggested use: Restaurant and bar feature lighting

Opal, mirror & gradient

Milky-white surfaces, a reflective crown and a graduated tint offer three contrasting design directions.

OOL-DB-09

Opal Ribbed Globe

Raised ribs add definition to a milky-white globe for a calm, neutral look.

Raised texture / opal-white finish

Suggested use: Home and hospitality concepts

OOL-DB-10

Opal Silver-Crown Globe

A silver-coloured mirror crown contrasts with the opal-white body.

Mirror crown / opal-white body

Suggested use: Decorative table-lamp concepts

OOL-DB-11

Gradient Oval

A flattened oval outline and a graduated surface colour create a distinctive accent.

Oval profile / gradient finish

Suggested use: Colour-themed displays and interiors

Choose by finish

OPAL

A quiet, milky-white surface.

MIRROR

A reflective accent with a clear visual contrast.

GRADIENT

A graduated tint for a more expressive look.

Compare samples under your intended lighting before final selection.

Pattern & artistic effects

Crackle, ice-flower, stone-inspired and dotted finishes make the surface pattern part of the design.

OOL-DB-12

Black Crackle Globe

A dark crackle-effect pattern becomes a fine, illuminated network when lit.

Crackle-effect surface pattern

Suggested use: Themed interiors and bar concepts

OOL-DB-13

Blue Ice-Flower Globe

A blue shell with an ice-flower effect offers a frosted, crystalline visual texture.

Ice-flower effect / blue finish

Suggested use: Seasonal displays and creative interiors

OOL-DB-14

Marble-Effect Globe

Stone-inspired veining gives the globe a decorative presence both unlit and illuminated.

Stone-like surface pattern

Suggested use: Material-led interiors and table lamps

OOL-DB-15

Confetti Cylinder

A dotted, multicolour surface brings a playful pattern to a compact cylinder.

Decorative colour pattern

Suggested use: Playful interiors and display concepts

From a style to your project

OOOLights helps bring the design direction and the supply discussion together.

Glass with character

Texture: raised ribs, water-wave forms and faceted surfaces give the glass its visual character.

Colour & reflection: amber, smoked, iridescent, copper-toned and mirror effects offer different moods.

Pattern: crackle, ice-flower and artistic designs add detail to the surface.

Descriptions refer to visual effects. Final finish and illuminated appearance are confirmed with samples.

01 Share your shortlist

Send the selection reference, a screenshot or your preferred shape and finish.

02 Match the requirements

We help coordinate samples and confirm dimensions, lamp base, electrical specification and light appearance for the intended market and use.

03 Confirm the supply details

Discuss the selected style, quantities, packaging and project needs. Custom pattern enquiries are welcome; feasibility is confirmed for the chosen design.

Photos show example appearances; holders, cords and props are for display. Final configuration and availability are confirmed per enquiry.
